COMFORTMEDIC - ERGOLAB

Madam, Sir,

We are pleased to announce that **ComfortMedic Technologies Inc.** has completed the acquisition of all the shares of the **Ergolab** company (incorporated under the name Tinn-Co Inc.).

ComfortMedic will be concerned to pursue the same mission **that Ergolab**, both design and manufacturing products facilitating the care and well-being of people with loss of autonomy. We will ensure the continuity of current **Ergolab** operations with clients and suppliers and we will continue the manufacturing of devices (bed, bath, lift-o-tech, bars adjustable tables). We will also assume the after-sales service and guarantees of different products.

We would like to thank the former owners, Ms. Christine Émond and Mr. Paulo Ouellet, as well as the entire team **of Ergolab** for their great cooperation, facilitating a seamless transfer of operations to **ComfortMedic**. From now on, you can contact ComfortMedic directly for all your questions or needs about Ergolab products.

Thank you for your trust and your loyalty, we appreciate your business and look forward to serving you in the future.

Best regards,

COMFORTMEDIC TECHNOLOGIES INC.
