

## Bathing system **PATRIOT**

Molded seat, large front door, unique guiding system for easy transfer of the hoist in and out of the tub and an optional hot water tank for superfast and safe filling.

The Patriot bathing system is now offered with the **Senta** bathtub hoist, featuring our unique guiding system for easy and safe transfer.

## **The Patriot is a highly efficient, safe and compact bathing or showering system.**

The Patriot tub is designed for easy and efficient bathing or showering of patient with reduced mobility. It offers a compact, secure and ergonomic environment free of water splash for the caregivers. The large front door features a maintenance-free seal and ultra-safe locking mechanism avoiding any risk of unwanted opening. The complete system requires very little space in the bathroom and allows the patient to receive care in a comfortable and dignified way. It is possible to give a complete bath or shower as needed. The tub also features a molded seat with ergonomic shape and a central opening to allow easier care of the intimate parts.

The Patriot system is designed to be used with the Senta bathtub hoist and our unique guiding rail system for easy and quick transfer in and out of the tub. To complete the system, an integrated water reservoir with anti-scald protection allows complete and safe filling of the tub in just 90 seconds.

### **Standard features of the Patriot tub:**

---

Rectangular tub shape with large front door, 3/4 in thermostatic mixer (TP balanced) and hand shower.

External dimensions (depth X width X height) of the tub only : 1350 x 760 x 990 mm

Maximum water capacity of the tub: 260 liters

2 years warranty (parts and labor) against any manufacturing defect

### **Additional features available to complete the Patriot bathing system:**

---

Senta bathtub hoist with unique guiding rail system for easy and safe transfer in and out of the tub.

Digital scale on the Senta bathtub hoist (see the Senta complete brochure for all details).

Hot water reservoir (505 x 1105 x 1830 mm) with anti-scald protection, superfast 90 sec. fill time and digital displays of water temperature (inside the tub and inside the water reservoir).

Disinfection hand shower with locked reservoir.

Soap and shampoo dispenser mounted on tub rim.

Warm air-jet system with multiple backflow preventers avoiding water circulation.

LED colored light therapy system
